Skilledge

08/2021 - Present

Pune

## SKILLS

Python

Django

JavaScript

React.js

HTML

CSS

GitHub

Ajax

Bootstrap

Json

## PERSONAL PROJECTS

Building E-commerce Website using Django 4.0  
(01/2022 - 02/2022)

- This e-commerce website will display products, customers can select catalogs and select products, and can remove products from their cart specifying the quantity of each item.
- Selected items will be collected in a cart. At checkout, the item on the cart will be presented as an order. Customers can pay for the items in the cart to complete an order.
- The project also provides security with the use of login ID and password, so that no unauthorized users can access your account.
- To design UI of this website we use bootstrap and for backend we use Django framework and SQLite database which comes by default with Django.

User Login and Registration Form using Django 4.0  
(01/2022 - 01/2022)

- This is simple User Registration form project created by using Django 4.0.
- In this project User can login and log out.
